GOOD FACTORY

INTRODUCTION

In 2023, we directed **€1,415,095** towards humanitarian and development aid in 11 countries across 3 continents by feeding, treating, educating and giving jobs.

GOOD FACTORY

ANNUAL REPORT FOR 2023

Are we bragging? Yes. These are news that anyone who responded to our call to produce a bit of good with us can brag about.

DEMOCRATIC REPUBLIC OF THE CONGO

HOSPITAL IN NTAMUGENGA

We take care of the hospital in the village of Ntamugenga in the North Kivu province. This has been an exceptionally dangerous region for years - **ongoing fights between the army and rebels** take a deadly toll, including among children. During the summer, the hospital faced **a cholera epidemic**, and we managed to cure all 58 patients.

HOSPITAL IN NUMBERS

- We saved nearly **7000 people suffering from malaria**, with **3170 of them being children** under 5 years old
- We conducted **14,503 outpatient appointments**
- We hospitalized **3191 patients**
- We performed **610 blood transfusions**
- We attended to **953 childbirths**
- We performed **396 surgical procedures**
- We conducted over **3500 minor surgeries**, provided thousands of dressings, injections, vaccinations, tooth extractions, and other treatments.

DEMOCRATIC REPUBLIC OF THE CONGO

HOSPITAL IN NTAMUGENGA

RECENT PROJECTS

We repaired **roofs and ceilings** damaged during the rebel fighting and replaced the **solar panels** that were pierced.

We renovated the warehouse, converting it into a **kinesiotherapy room** for the sick.

We carried out a thorough **renovation of two sanitation facilities**, essential for maintaining hygiene and limiting infectious diseases.

We purchased **14 new hospital beds** and donated the old ones to the hospital in Jomba, which had been ravaged by rebels. Thanks to our support, it could resume admitting patients.

DEMOCRATIC REPUBLIC OF THE CONGO

HOSPITAL IN NTAMUGENGA

We sent three children for life-saving **cardiac surgery** in France.

Thanks to the new ultrasound machine we acquired last year, we performed **over 1560 imaging exams**.

As the sole hospital in the region, we performed life-saving **spleen removal surgeries** for tropical splenomegaly. We conducted **over 36 of such procedures**.

We financed a **professional development course** for another doctor, Dr. Augustyn, enabling him to **independently perform ultrasound examinations**, thus improving the effectiveness of the new equipment.

HOSPITAL SUPPLIES AND FUNDING THERAPY

08

DEMOCRATIC REPUBLIC OF THE CONGO

NUTRITION CENTER IN NTAMUGENGA

The nutrition center at our Saint Raphael Hospital in Ntamugenga is **the only institution of this kind so well equipped** in the entire province of Northern Kivu. **We help the youngest with diagnosed malnutrition**, which can lead to hunger disease that poses a threat to their lives.

Although the amount of fighting in the region decreased in 2023, hunger continues to take a huge toll. Farmlands were mined by both the rebellion and the army, which has exacerbated the food crisis. We **expanded our food aid** beyond the center's premises, **supporting the local population**.

OUR RESULTS IN NUMBERS

This year in Ntamugenga, we have helped:

- **143** children overcome **severe malnutrition**
- **396** children overcome **moderate malnutrition**

We save around 550 children annually from hunger disease.

Weekly, we treat about 80 children with hunger disease.

DEMOCRATIC
REPUBLIC OF THE CONGO
SUMMARY

In 2023, we donated **€188,508** to the hospital and nutrition center in Ntamugenga, facilitating their ongoing operations.

RWANDA

HOSPICE IN KABUGA

Good Factory supports the first and so far the only hospice in Rwanda, operated by the Polish Congregation of the Sisters of Angels.

OUR RESULTS IN NUMBERS

In 2023, we donated **€84,100** to the hospice.

That allowed us to provide care for **38 patients** in critical condition.

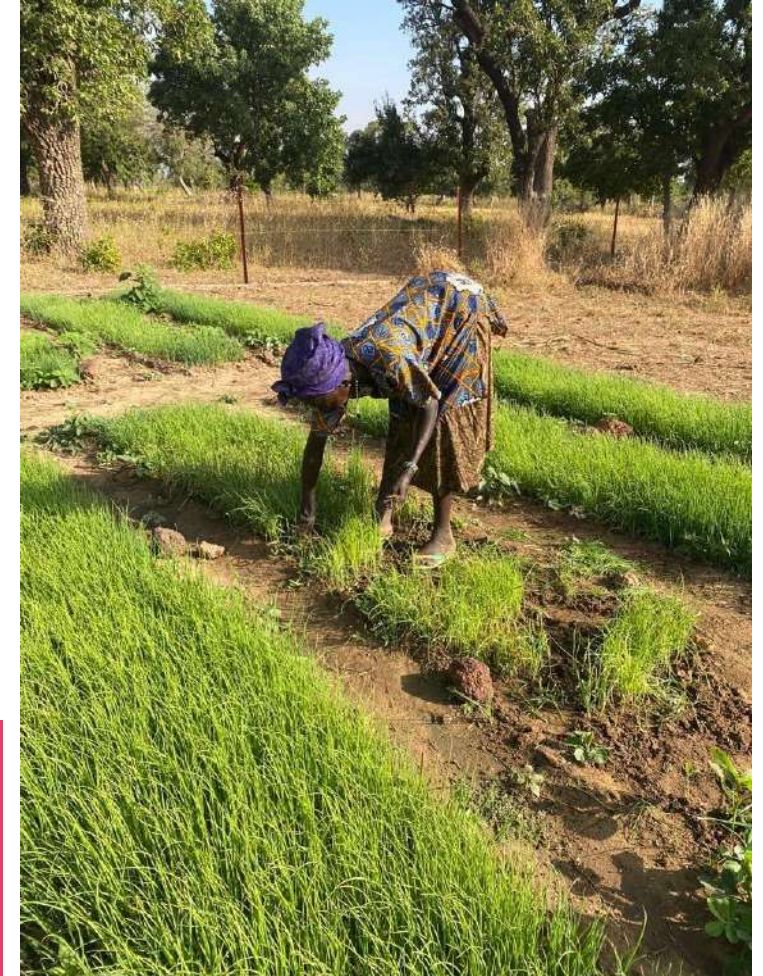

Additionally, **we take care of 28 children of employees, deceased patients, and poor families.** We rented a house, providing shelter for **five children**, and cover all their living expenses.

In 2023, **we admitted our youngest patient** - two-year-old Geoffrey. We provide him with regular **physiotherapy exercises.** He suffers from underdevelopment of limbs and muscles, and is also blind.

BURKINA FASO

AGRICULTURAL PROJECT IN THE VILLAGE OF GOURCY THE GARDEN

We provide employment for **40 families** who tend to the vegetable garden we established.

BURKINA FASO

AGRICULTURAL PROJECT IN THE VILLAGE OF GOURCY INVESTMENTS

WELL DIGGING

In March, we dug the **fifth well**, which was necessary to ensure proper irrigation in the garden.

VEGETABLE GARDEN

We harvested **crops**, and after selling them, we were able to **purchase new experimental vegetable seeds and gardening equipment**. Some of these proceeds were **allocated to the microloan fund**, which is now used by garden staff to **foster their own entrepreneurship**.

We organized a **two-day workshop on cultivating plants** in pots and containers.

BURKINA FASO

AGRICULTURAL PROJECT IN THE VILLAGE OF GOURCY
DEVELOPMENT AID

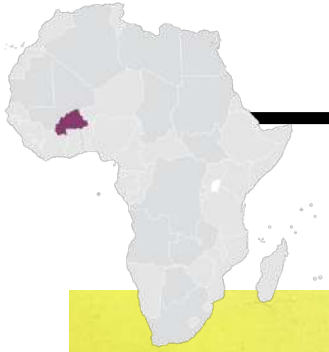

SUPPORTING EDUCATION

In September, we financed **school supplies for 26 children** from families in Gourcy who are participating in the project.

School education in Burkina Faso includes learning about agriculture, tree planting, livestock care, water management, and basics of healthy nutrition.

The school supplies provided to the children are a prerequisite needed to participate in education and are a step towards independence in their future adult lives.

BURKINA FASO

AGRICULTURAL PROJECT IN THE VILLAGE OF GOURCY
FOSTERING ENTREPRENEURSHIP

SEWING ROOM

There are 16 girls in the second year, and 13 in the third one. In October 2023, **a new group of 29 girls** began our 3-year tailoring school.

The girls starting their education received shirts and material for skirts.

We continuously supply the sewing room with **sewing materials, threads, and tools**. We also conduct maintenance on the machines.

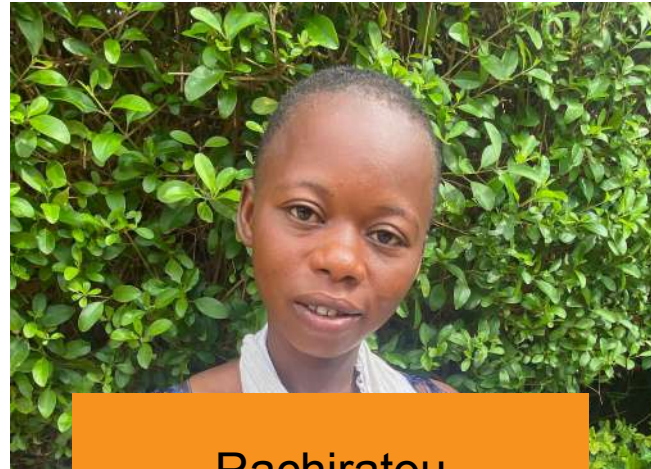

BURKINA FASO

AGRICULTURAL PROJECT IN THE VILLAGE OF GOURCY HEALTH CARE

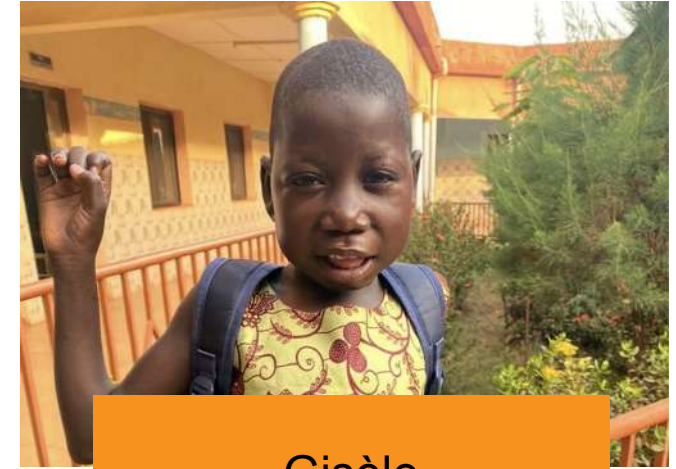

Hyacinthe

The boy went through cerebral malaria in early childhood, which led to neurological changes delaying his development. We provide him with **regular physiotherapy care and rehabilitation**, we also finance his **education**.

Rachiratou

A 25-year-old orphan, mother of a 6-year-old girl, lived and studied in Gourcy. She was mistreated and starved by her aunt. We sent her to Dakar, where she's **learning a valuable profession** and how to live independently.

Gisèle

The girl didn't attend school because she **couldn't speak**. We provide her with ongoing care from a neurologist and speech therapist. In September, she started going to school and learned to say her first sentences. We cover all the costs of **treatment, transportation, and speech therapy sessions**.

TOGO

PHARMACY IN SAOUDÉ HEALTH CARE

ST. FRIDOLIN PHARMACY

Our pharmacy is located in Saoudé, an extremely impoverished area in northern Togo. Patients receive **medicines** from us in exchange **for a symbolic bowl of corn**. The collected grain is distributed during the dry season to those who have nothing to eat.

We supplied the pharmacy with all the necessary meds. **Our aid reached 3,600 people**. Patients are coming from more and more distant areas to seek help.

TOGO

PHARMACY IN SAOUDÉ HEALTH CARE

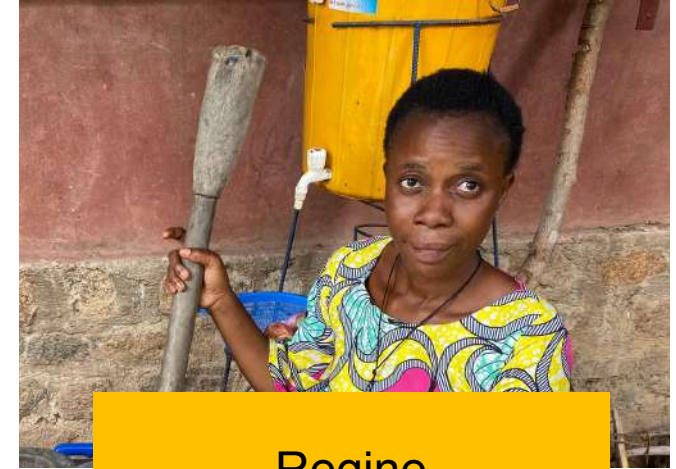

Susanne

A young mother of two girls. We sent her for a psychiatric consultation suspecting **epilepsy**. This diagnosis was confirmed by the psychiatrist. We provide Susanne with **regular psychiatric appointments**, covering the **cost of all medications and additional tests**.

Marcel

The boy suffered from sickle cell anemia. We took him to the capital for a **consultation with a hematologist**, who prescribed effective medications. Marcel receives **constant nutritional and pharmacological care**. In 2023, he started his **education at an agricultural school**, with all costs covered by us.

Regine

Regine asked us for help, saying she doesn't understand what's happening to her. The source of the problem turned out to be psychiatric disorders. **We provided Regine with psychiatric care**; she takes **medication** daily. We finance her therapy. Every 2-3 months, she attends medical check-ups.

BURKINA FASO AND TOGO SUMMARY

In 2023, we allocated a total of **€46,092** for projects in Burkina Faso and Togo.

GREECE

HELP FOR REFUGEES ON THE ISLAND OF LESBOS

We have donated **€184,110** to help residents of the camp and smaller refugee centers in Greece, reaching out daily with warm meals for the sick, pregnant women, and children. Our Home for All kitchen prepared **130,080 meals**.

Moreover:

- From June to December, we funded lunches for **1200 refugees**, which were prepared at the Home for All restaurant.
- **We continued operations at the Home Village farm and provided employment for 16 individuals** - 6 permanent employees and 10 temporary workers.
- We covered the ongoing costs of **legal assistance, passports, and travel** for refugees who had the possibility of relocation.

GREECE

HOME VILLAGE FARM

Together with Katerina and Nikos, the founders of Home for All, **we are developing the Home Village farm**, which provides employment for refugees. In doing so, we demonstrate that they do not seek constant support but rather opportunities to learn, work, and **independently ensure their families' safety**.

At the moment, the farm spans over 5 hectares. It has **olive and avocado orchards**, a greenhouse with a **plant nursery**, a **vegetable garden**, as well as enclosures for **goats, geese, and quails**.

OLIVE OIL PRODUCTION

HOME VILLAGE FARM

We've launched a **craft olive oil production facility** producing only the highest quality oil, pressed exclusively using traditional methods and **manufactured by refugees**.

In the production of NIKA olive oil, **we employ 8 of our beneficiaries**. They receive **fair compensation** for their work, enabling them to participate in the local community's life. Knowing that the olive oil they produce with immense dedication is gaining recognition abroad helps them **regain a sense of purpose in life**.

In 2023, we sold **over 100 bottles of olive oil**, with the proceeds equivalent to **more than 900 meals for refugees**. We directed the full amount towards aid.

SENEGAL

SCHOOL FOR GIRLS FOSTERING ENTREPRENEURSHIP

In August, **26 girls** graduated from our vocational school in Dakar. All of them found employment within a day - the demand for our school's graduates from on the job market is very high. In the same month, **another 29 girls began their studies.**

At our school, the girls participate in **culinary, tailoring, computer science, English language, and economics classes.**

MODERNIZATION OF THE SCHOOL FOR GIRLS IN JOAL

VOCATIONAL EDUCATION SUPPORT

As part of the Ministry of Foreign Affairs program "Polish Development Aid 2022/2023", we provided support to the girls' school in Joal.

We purchased a **new electric oven for baking** and installed it in the kitchen connected to the shop. Additionally, we bought a **new stove** that reduces gas consumption.

As the oven requires a lot of energy, we also made necessary modifications to the electrical installation. We installed **solar panels**, which **halved our electricity consumption**.

SENEGAL

SCHOOL FOR GIRLS • FOSTERING ENTREPRENEURSHIP
PODSUMOWANIE

In 2023, we allocated a total of **€101,652** to the project in Senegal.

BANGLADESH

ROHINGYA CAMP FAMILY ASSISTANCE PROJECT

With a population density of 40,000 people per square kilometer, the refugee camp in Cox's Bazar in **Bangladesh is one of the most densely populated places on Earth**. For the past five years the Good Factory has been **helping alleviate hunger and suffering** among Rohingya families there. Among them there are **single mothers** and **elderly women** who struggle to navigate the complexities of camp life on their own.

Throughout 2023, we consistently provided **food** supplies to **11 families**, diversifying their meager camp diet (which consists of rice, oil, and lentils).

Throughout the entire year, we allocated **€11,605** to support **11 families**.

LEBANON

PHARMACY FOR THOSE IN NEED

In crisis-stricken Lebanon, home to one of the world's largest economic collapses, Good Factory has been assisting the sick and impoverished since September 2021, providing daily support to those who wouldn't survive another month without help.

Together with the Adventure of Charity Association, we care for 250 individuals in need, regularly providing them with:

- **life-saving medications** for chronic illnesses
- **food** and **basic hygiene** and **sanitation supplies**

Moreover:

- We provided those in need with **vegetable oil, pasta, milk** and basic **hygiene products**.
- We provided a total of **100 liters of heating oil to 70 families** to help them survive the winter.
- We supplied **food parcels for 155 families**.
- We prepared **60 backpacks filled with school supplies** for children.
- We assisted Adventure of Charity in covering a portion of the rent for the assistance center.

LEBANON

PHARMACY FOR THOSE IN NEED

We provided vouchers for 80 families to redeem at selected stores in the village to purchase essential items.

This also provided significant support for the local businesses.

We allocated **€28,960** to aid the sick and the impoverished.

MAURETANIA

NUTRITION CENTER IN KAÉDI

Good Factory supports a **nutrition center for children** in the city of Kaédi, Mauritania. Two employees, **nearly a hundred children weekly** divided into three groups, excellent organization, and so far, no regular support. Nuns have been overseeing everything for years. Before we started helping, the project was occasionally supported by the local bishop. His contribution was invaluable, but **the center needed regular, organized support.**

OUR RESULTS IN NUMBERS

This year in Mauritania, we have helped:

- **72** children overcome **severe malnutrition**
- **94** children overcome **moderate malnutrition**

We save around 200 children annually from hunger disease.

In 2023, we allocated **€6,374** to support the patients of the nutrition center in Kaédi.

UKRAINE

HUMANITARIAN AID

We continuously organize **transportation of humanitarian aid**. We've established a network of contacts, enabling our aid to reach even the most dangerous places.

Despite the ongoing military operations, **we provide assistance to civilians in Donetsk, Dnipro, Kherson, Odesa, Poltava, Bakhmut, Sloviansk, Izium, Lysychansk, and Kharkiv.**

The distributed aid includes two-week **food parcels** and **essential non-food items** (NFIs), including hygiene products, providing support for an entire month.

UKRAINE - WINTER SUPPORT

HUMANITARIAN AID

Our aid reached **12,690 Ukrainian citizens** who suffer due to **power and gas supply interruptions**. Winter poses a deadly threat to them. We provided **sleeping bags, power generators (1 kV - 20 kV), thermoses, power banks, portable heaters, and thermal underwear**.

CRISIS RESPONSE

COORDINATING HELP

In Ukraine, we collaborate with others, sharing our **Smart approach** with much larger organizations.

As a member of the specially formed group of humanitarian organizations called the "Emergency Task Force," chaired by UN, OCHA, and IOM, **we were responsible for coordinating assistance during extraordinary situations.**

We developed Emergency Response Guidelines for providing cash assistance to victims of rocket attacks, gunfire, and disasters such as **the destruction of the Nova Kakhovka dam.**

UKRAINE

HELPING REFUGEES IN POLAND

In partnership with Mercy Corps Poland, we provided assistance to **4,267 Ukrainian refugees** in Poland between January and November 2023.

Organized actions:

- Providing **new winter clothing** and **footwear** - 4,267 Ukrainian refugee children
- Distributing **food vouchers** - 1062 individual beneficiaries
- Distributing **vouchers for warm clothing** and **footwear** for 225 Ukrainian refugee children
- Distributing **371 hygiene and sanitation kits** along with **bedding, blankets, pillows, comforters**, etc.
- **Vocational courses**, including **Polish language courses**, for 103 individuals.
 - Completed courses: floristry, confectionery with elements of baking, hairdressing, eyelash and eyebrow styling, elderly care, career counseling
- **Therapeutic art workshops** for 99 children

UKRAINE SUMMARY

34

In 2023, we allocated
€748,379 to aid the
victims of the war
in Ukraine.

POLAND

WARM PACKAGE FOR PEOPLE IN A HOMELESSNESS CRISIS

As part of our annual **Warm Package** initiative, we helped prepare a total of 251 personalized packages for people in a homelessness crisis. Additionally, we collaborated with Mercy Corps on a project where we provided **warm jackets, shoes, sleeping bags, thermal blankets, and backpacks** to people facing homelessness.

We provided **€13,547** in support for people experiencing homelessness in Warsaw.

PARTNERS

The value of grants awarded to the Good Factory by our key Partners in 2023 amounted to **€773,391**.
